SUMMARY

Results-oriented Java, C, and CSS programmer with 1 year of internship experience in developing, testing, and maintaining enterprise software applications using tools like Spring Boot, React, and Node.js. Designed and developed 8+ front-end and 2 back-end applications based on business use cases. Skilled in debugging, optimizing performance, and delivering user-focused solutions in collaborative, agile environments. Seeking an opportunity to contribute and grow as a software developer.

EDUCATION

Bachelor of Technology (B.Tech)

Maharshi Dayanand University

📅 08/2020 - 05/2024 📍 Rohtak, Haryana

Higher Secondary School

School

📅 2019 - 2020 📍 HBVMIC Tikhampur, Ballia, Uttar Pradesh

PROFESSIONAL EXPERIENCE

Software Engineering Intern

Techplement

📅 08/2024 - 09/2024 📍 Remote

A company providing innovative tech solutions and web applications

- Developed a web-based event management system using **Node.js and Express.js**, enabling **100+ event organizers** to streamline attendee registration and scheduling.
- Designed an intuitive **front-end (HTML, CSS, JavaScript)** that improved **user engagement by 30%**.
- Integrated **MySQL and MongoDB**, reducing data retrieval time by **40%**, enhancing event planning efficiency.

Software Engineering Intern

Eduanalytix Private Limited

📅 05/2023 - 05/2024 📍 Remote

A company providing innovative tech solutions and web applications

- Built a **full-stack e-commerce solution** using **Java, Spring Boot, and React**, supporting **500+ daily transactions**.
- Integrated secure payment gateways and user authentication, ensuring **99.9% transaction success rate**.
- Conducted **peer code reviews**, reducing system errors by **20%**, and optimized API performance, cutting response time from **4s to 2s**.
- Enhanced **application performance by 30%**, leading to a **15% increase in customer retention**.

CERTIFICATION

Java Full Stack Development Certification

Comprehensive training in Java Full Stack Development

Certified Full Stack Web Development

Complete certification in Full Stack Web Development

Certified Java Language

In-depth understanding of Java language fundamentals

LANGUAGES

Hindi Intermediate **English** Advanced

INTERESTS

Reading Books and Playing Sports Creative Problem-Solving

STRENGTHS

Team Collaboration

Strong ability to collaborate in team settings and adapt to dynamic work environments

Time Management

Capable of managing time efficiently and meeting project deadlines.

PROJECTS

Event Management System

🔗 <https://github.com/Devavrat01/Event-Management-system-Techplement>

An application that simplifies the process of planning events and managing attendees.

- Expanded a web-based application using **Node.js** and **Express.js** to manage event planning, including attendee registration and scheduling

Recipe Finder App

🔗 <https://project-seven-hazel.vercel.app/>

Developed a responsive React-based recipe search app using the Edamam API.

- Utilized React Hooks (**useState, useEffect**) for state and API handling.
- Clean component structure (**src/components**) focused on reusability and performance.
- Enhanced user experience with dynamic search and clean UI layout.

UI Landing Page Clone (EZWorks)

🔗 <https://ezworks-ui.vercel.app/>

Built a pixel-perfect landing page with React

- Emphasized responsive design, grid layout, and modern UI patterns.
- Demonstrated attention to UI/UX detail by mimicking real-world branding design.

KEY ACHIEVEMENTS

E-commerce Platform Development

Successfully improved user experience and system performance in a team environment.

Event Management System

Designed and implemented a successful event management application that streamlined event planning processes.
